GUIDE TO GLOBAL TALENT VISAS -  
ACADEMIA OR RESEARCH CATEGORY

# THINKING OF WORKING IN THE UK AS A TOP-TIER PROFESSIONAL?

The **Global Talent visa** is designed for exceptional and emerging individuals in key sectors like science, engineering, medicine, social sciences, and the humanities. It offers a flexible path to live and work in the UK — usually without the need for a job offer. Unless you have won an eligible prize you must first be endorsed by one of six official bodies, such as the **Royal Society** or **UKRI**, depending on your field.

Navigating the endorsement process can be complex — from gathering the right evidence to understanding what each endorsing body expects. That's where **Migrate UK** comes in. Our expert immigration team specialises in **Global Talent visa applications**, offering tailored support throughout the **endorsement and visa process**. We know what endorsing bodies look for and can help you present a strong, compelling case — increasing your chances of approval.

# FAQ's

## **Q: Can I switch to the Global Talent visa from another visa while in the UK?**

A: Yes, you can switch to the Global Talent visa from another visa while in the UK. However, you *cannot* switch if you're currently in the UK on:

- a visit visa
- a short-term student visa
- a Parent of a Child Student visa
- a seasonal worker visa
- a domestic worker in a private household visa
- immigration bail
- permission to stay outside the immigration rules (e.g. on compassionate grounds)

If you're in one of these categories, you must leave the UK and apply for the Global Talent visa from outside the country.

## **Q: Do I need a job offer to be eligible?**

A: If applying under the category academia and research appointments, individual fellowships or endorsed funders you must have an eligible job offer.

## **Q: Will a secondment abroad as part of my fellowship or grant affect my eligibility for the Global Talent visa?**

A: No, secondments or time spent outside the UK won't affect your eligibility for endorsement, as long as all other criteria are met. However, if you're applying under the Endorsed Funder route, you must have at least two years remaining on your employment or hosting agreement with a UKRI-approved UK organisation at the time of your visa application. This requirement does not apply to other endorsement routes.

## **Q: Can I undertake research overseas on a Global Talent Visa?**

A: Yes. Time spent outside the UK for research purposes is exempt from the 180-day annual absence limit when applying for settlement.

## **Q: What is the prizes route?**

A: Individuals who have won certain prestigious prizes can apply for a Global Talent visa without needing endorsement. The list of eligible prizes can be found on the Immipact platform.

## **Q: What does PhD or equivalent research experience mean?**

A: Equivalent research experience to a PhD means at least three years of leading and delivering impactful research, typically outside a traditional academic path. Simply being near the end of a PhD or having clinical experience without research outputs does not qualify.

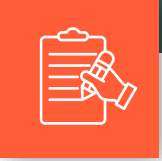

## **Q: Who is considered an active researcher?**

A: Being an active researcher means having a consistent track record of research in your field. Your application will be assessed based on your career history, contributions, and research outputs — including publications, awards, funding, patents, and other forms of innovation.

## **Q: How soon can I settle in the UK?**

A: You may qualify for Settlement through this visa route. The required time depends on how your visa was granted: 3 years for Exceptional Talent or 5 years for Exceptional Promise.
